GENSHIFTER TECHNOLOGIES

Date: Nov-05-2025
Ref.No: letout-gen-00018

To Whom It May Concern,

I am writing to strongly recommend **Elias Hizkiel**, who served as a Frontend Development Intern at GenShifter Technologies for three months. Elias distinguished himself as a highly skilled and dependable professional, consistently delivering work of exceptional quality throughout his internship.

Elias was the lead developer on the **frontend implementation of Aliko ConTech dashboards** for clients, contractors, and inspectors. He ensured seamless API integration, responsive design, and robust state management, enabling efficient workflows across the platform. In addition, Elias contributed significantly to the **Careers Page**, integrating job postings and building a reliable user experience.

What set Elias apart was not only his technical expertise but also his professionalism and leadership qualities. He frequently took the initiative to refine and optimize existing code, supported his teammates with troubleshooting, and ensured deadlines were met without compromising quality. His outstanding performance was recognized when he was awarded **Professional of the Month (July 2025)** for his leadership and execution.

Elias has the technical depth, problem-solving ability, and professional maturity required to thrive in complex environments. I have no doubt that he will bring immense value to any organization that he joins. I recommend him without hesitation for any opportunity in frontend development and software engineering.

GENSHIFTER TECHNOLOGIES

Sincerely,
Abdi Birassa
General Manager
